June 20, 2011

Honorable Mayor, City Commission and Citizens of Dumas, Texas:

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the City of Dumas, Texas for the fiscal year ended September 30, 2010. The purpose of the CAFR is to provide accurate and meaningful information concerning the City's financial condition and performance. In addition, independent auditors have verified that the City has fairly presented its financial position, in all material respects.

This report was prepared by the Finance Department with the assistance of various other City departments. City management assumes full responsibility for the accuracy of the data presented and the completeness and fairness of presentation, including all disclosures, based upon a comprehensive framework of internal control that has been established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements. J.W. Anderson and Associates, certified public accountants, have issued an unqualified opinion on the City's CAFR for the year ended September 30, 2010. As indicated by the opinion of our independent auditors, the report fairly presents the financial position and the results of operations of the City as measured by the financial activity of the City's various funds. The report has been set forth in a manner that will give the reader a broad understanding of the City's financial affairs. It included disclosures necessary for the reader to gain an understanding of the City's financial activities. The independent auditors' report is located at the front of the financial section.

Management's Discussion & Analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

Profile of the City of Dumas

The City of Dumas, incorporated in 1930, is a city in Moore County, Texas, United States. Dumas Avenue, the main thoroughfare, is also United States Highways 287 and 87.

The population, according to the 2010 census, is 14,691, which is a 6.8% increase from 2000 of 13,747. (www.city-data.com). It is the county seat of Moore County. Located approximately fifty miles north of Amarillo, the city is named for its founder,

Louis Dumas (1856–1923). In 1891 Mr. Dumas and his associates formed the Moore County Townsite Company and platted the town on a site some five miles south of South Palo Duro Creek. The first building housed the company office, a hotel, a general store, and the city's first post office. In 2009, there were an estimated 340 establishments within the City.

Dumas operates under a council/manager form of government consisting of a mayor and four commissioners. The mayor and commissioners are elected at large for three-year terms. The city manager, appointed by the City Commission, is responsible for the management of all City employees and the administration of all City affairs.

A full range of services are provided by the City of Dumas. These services include public safety (police and fire); community services (culture and recreation); facilities; streets, public improvements; planning, zoning, engineering; public utilities (water, gas, wastewater, solid waste) and general administration of services.

The CAFR of the City includes all government activities, organizations and functions for which the City is financially accountable. The criteria used to determine financial accountability are based on, and consistent with, the pronouncements of the Governmental Accounting Standards Board which sets criteria for defining the financial reporting entity. The City does not have relationships with any organizations not included in this CAFR of such nature and significance that exclusion would render the City's financial statements incomplete or misleading.

Economic Condition and Outlook

The information presented in the financial statements is perhaps best understood when it is considered within the context of the City's economy. The following information is provided to highlight a broad range of economic forces that support the City's operations.

Dumas is the fastest growing city in the Panhandle north of Amarillo. The City serves as the hub for a regional trade area of more than 70,000 people. Retail shoppers come to Dumas from New Mexico, Oklahoma and Kansas on a regular basis. (www.dumasedc.org).

Although Sales tax revenues showed only a 2% increase in 2009 when compared to 2008, the sales tax figures have shown steady increases of at least 6% each year for the past several years.

Dumas is in the heart of one of the state's leading grain sorghum producing areas. Moore County also produces large quantities of natural gas, as well as two-thirds of the nation's helium. Several feedlots, grain elevators, beef packers, and fertilizer plants attest to the leadership in agribusiness.

The City's 2010 census was 14,691, increasing 6.8% since 2000 and is the principal industrial and commercial center of Moore County. The economy is based on agriculture and cattle. The Texas Almanac designates cattle, corn, wheat, sorghum, cotton, soybeans and sunflowers as principal sources of agricultural income. Moore County was ranked as Texas' 5th leading producer of corn for 2006 and 8th leading producer of wheat in 2005.

In 2009, among the most common occupations in Dumas are Production, transportation, and material moving occupations, 25%. Management, professional and related occupations measured approximately 20% and Sales and office occupations were 18%. Approximately 75% of the workers in Dumas work for companies, 13% work for the government and 7% are self-employed.

Employees in 2002 (www.city-data.com)

The leading industries in Dumas are Manufacturing, 26%; Educational, health and social services, 16%; and Retail trade, 9%. (www.simplyhired.com).

Establishments in 2002 (www.city-data.com)

With nearly 300 days of sunshine annually, Dumas is fast becoming the green technology hub of the region. New solar based manufacturers are beginning to take a close look at Dumas for new development projects. Dumas is also the host to several wind farms in all directions around the City. Additional farms are being planned and developers are looking for ways to couple the wind energy with another means, such as solar, to create a more continual source of power. Amarillo Community College Moore County Campus has partnered with the Dumas Economic Development Corporation to provide a new state of the art Renewable Energy Program to train and educate young adults in, not only wind energy, but also biofuels and solar technologies.

Internal Control Framework

Integrated within the business systems of the City are policies and procedures over accounting and financial reporting that make up the internal control framework. The internal control framework provides assurance that the accounting systems and underlying data are reliable. There are certain limitations inherent in the internal control framework. Management may choose to accept certain risks because the cost to prevent all risk is not reasonable. Additionally, while management is responsible for establishing and maintaining effective internal controls, the authority to override controls is retained within management. Although some level of risk within the internal control framework is unavoidable, the City's management maintains an attitude of supporting strong and effective internal controls.

Budgetary Control

Texas state statutes mandate that municipalities operate within the confines of a balanced budget. Annual budgets are adopted for all funds. All unexpended appropriations lapse at the end of the fiscal year. All City departments submit requests for appropriation to the Finance Director each year. The Finance Director uses these requests as the starting point for developing the proposed operating budget and then presents the requests to the City Manager. The City Manager then presents the proposed operating budget to the City Commission for review. The Commission sets hearings for annual budget review, approves the final budget and sets the property tax rates no later than September 30, the close of the City's fiscal year.

Expenditure authority is provided at the department levels. Management may make administrative transfers and increases or decreases between accounts below the department level without Commission approval. However, any transfer of funds between departments, the legal level of control, or higher level shall be presented to Commission for approval before such funds can be transferred between departments or expended.

Acknowledgements

The preparation of the Comprehensive Annual Financial Report could not have been accomplished without the efforts and dedication of the City staff. Sincere appreciation goes out to them for their dedication to the project. Credit is also given to the Mayor, City Commission and the City Manager for their interest and support in planning and conducting the financial affairs of the City in a responsible and progressive manner.

Respectfully submitted,

Dottie Williams

Finance Director

INDEPENDENT AUDITORS' REPORT

Honorable Mayor and
Members of the City Council
City of Dumas, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, budgetary comparisons for the general fund and business-type funds of the City of Dumas, Texas (City), as of and for the year ended September 30, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund, and the aggregate remaining fund information of the City of Dumas as of September 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof, and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America

In accordance with *Government Auditing Standards*, we have also issued our report dated June 20, 2011 on our consideration of the City of Dumas, Texas's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be considered in assessing the results of our audit.

Our audit was performed for the purpose of forming an opinion on the City of Dumas, Texas's basic financial statements and budgetary comparison schedule. The supplemental information as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The management's discussion and analysis on pages 3 through 8 and the schedules of funding progress related to pension plans and other postemployment benefits disclosed in Note I are not a required part of the basic financial statements but are presented in compliance with requirements issued by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required information. However, we did not audit the information and we do not express an opinion or any other form of assurance on such information.

CITY OF DUMAS, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS
September 30, 2010

In this section of the Annual Financial and Compliance Report, we, the managers of the City of Dumas, Texas discuss and analyze the City's financial performance for the fiscal year ended September 30, 2010. Please read it in conjunction with our transmittal letter, the Independent Auditor's Report, and the City's Basic Financial Statements.

FINANCIAL HIGHLIGHTS

The City's net assets from governmental activities increased by \$0.485 million as a result of this year's operations. Net assets of our business-type activities decreased by \$0.127 million and net assets of Dumas Economic Development Corporation increased by \$0.43 million or slightly more than 2%.

During the year, the City had expenses that were \$7.34 million, which is less than the \$8.74 million generated in tax and other revenues for governmental programs, before special items.

In the City's business-type activities, revenues decreased to \$7.2 million or 7% and expenses decreased to \$5.45 million or just under 17%.

Total cost of all of the City's programs, after charges for services and operating grants, was \$5.34 million. The total cost of Dumas Economic Development Corporation's programs, after charges for services and operating grants was \$.61 million.

The General Fund ended the year with a fund balance of \$1.41 million, which is an increase over last year's balance of \$1.0 million.

The resources available for appropriation were \$0.005 million more than budgeted for the General Fund.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Assets and the Statement of Activities. These provide information about the activities of the City as a whole and present a longer-term view of the City's property and debt obligations, other financial matters, and financial matters of Dumas Economic Development Corporation. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. For governmental activities, these statements tell how services were financed in the short-term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how goods or services of the City were sold to departments within the City or to external customers and how the sales revenues covered the expenses of the goods or services.

The notes to the financial statements provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for non-major funds contain even more information about the City's individual funds.

REPORTING THE CITY AS A WHOLE

The Statement of Net Assets and the Statement of Activities

The analysis of the City's overall financial condition and operations primary purpose is to show whether the City and Dumas Economic Development Corporation are better or worse as a result of the year's activities. The Statement of Net Assets includes all the City's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the City's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The City's revenues are divided into those provided by outside parties who share the costs of some programs, such as fines, permits, and utility user charges (program revenues), and revenues provided by the taxpayers or by grant revenues (general revenues). All the City's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current year or future years.

These two statements report the City and Dumas Economic Development Corporation's net assets and changes in them. The City's net assets (the difference between assets and liabilities) provide one measure of the City's financial health, or financial position. Over time, increases or decreases in the City's net assets are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the City, however, consideration should be given to the non-financial factors as well, such as changes in the City's needs based on population or its property tax base and the condition of the City's facilities.

In the Statement of Net Assets and the Statement of Activities, the City has two kinds of activities:

- Governmental activities – Most of the City's basic services are reported here, including general government, public safety, highways and streets, sanitation, and culture and recreation. Property taxes, sales taxes, trash collection and utility fund, internal franchise fees, and indirect cost reimbursements finance most of these activities.
- Business-type activities – The City charges a fee to customers for utilities and golf to help cover the cost of services provided and to finance the services in the governmental activities.

REPORTING THE CITY'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds, not the City as a whole. The City's management establishes many other funds to help control and manage money for particular purposes, like fire and police grants. The City's two kinds of funds, governmental and proprietary, use different accounting approaches:

- Governmental funds – Most of the City's basic services are reported in governmental funds. These use modified accrual accounting, a method that measure the receipt and disbursement of cash and all other financial assets that can be readily converted to cash and report balance that are available for future spending. The governmental fund statements provide a detailed short-term view of the City's general operations and the basic services it provides. We describe the differences between governmental activities reported in the Statement of Net Assets and the Statement of Activities and governmental funds in reconciliation schedules following each of the fund financial statements.

CITY OF DUMAS, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED
September 30, 2010

- Proprietary funds – The City reports the activities for which it charges users, whether outside customers or other units of the City, in proprietary funds using the same accounting methods employed in the Statement of Net Assets and the Statement of Activities. In fact, the City's enterprise funds, which are one category of proprietary funds, are the business-type activities reported in the government-wide statements but containing more detail and additional information, such as cash flows. The internal service funds, which is the other category of proprietary funds, report activities that provide supplies and services for the City's other programs and activities, such as the City's self-insurance program.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The City implemented GASBS Nos. 34 and 37 in prior years. Our analysis of comparative balances and changes focuses on the net assets (Table I) and changed in net assets (Table II) of the City's governmental and business-type activities.

Net assets of the City's governmental activities increased from \$1.34 million to \$1.82 million. Unrestricted net assets, the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements, were (\$1.93) million at September 30, 2010. In 2010, net assets of our business-type activities decreased by \$0.13 million. This is due mainly to the transfers to the General Fund.

CITY OF DUMAS, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS - CONTINUED
September 30, 2010

The City took the following action this year to compensate for some increase in cost:

- The City monitored the expenditures during the year.

The cost of all governmental activities this year was \$8.74 million. However, as shown in the Statement of Activities, the amount that our taxpayers ultimately financed for these activities was \$5.34 million because some \$3.21 million of these costs were paid by those who directly benefited from the programs and \$.19 million by other governments and organizations that subsidized certain programs with grants and contributions.

THE CITY'S FUNDS

As the City completed the year, its governmental funds, as presented in the balance sheet reported a combined fund balance of \$1.78 million, which is less than last year's total of \$1.96 million. Included in this year's total change in fund balance is an increase of \$.37 million in the City's General Fund. The net assets of Dumas Economic Development Corporation increased by \$.55 million to a total of \$1.99 million.

CAPTIAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2010, the City had \$11.83 million invested in a broad range of capital assets, including land, buildings, machines and equipment, vehicles, furniture and office equipment, communications equipment, gas systems, water systems, sewer systems, and golf course. This amount represents a net increase of just over \$.77 million or 7% above last year.

Debt

At year-end, the City had \$9.95 million in bonds, loans, capital leases, landfill closure costs, and unfunded defined benefit retirement obligation outstanding versus \$10.23 million last year which is a decrease of \$.29 million. More detailed information about the City's long-term liabilities is presented in the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City's elected and appointed officials considered many factors when setting the fiscal year 2011 budget and tax rates. One of those factors is the economy. The City's population has increased slightly from the prior year. The City Commissioners considered this factor when adopting the 2011 budget.

Amounts available for appropriation in the General Fund budget are \$6.7 million, an increase of 10% over the final 2010 budget of \$6.06 million. The City will use its revenues to finance programs currently offered. Budgeted expenditures in the General Fund are expected to increase nearly 18% to \$7.10 million from \$6.55 million in 2010. The City has added no major new programs or initiatives to the 2011 budget.

If these estimates are realized, the City's budgetary General Fund balance is expected to increase \$.029 million at the close of 2011

CITY OF DUMAS, TEXAS
 RECONCILIATION OF THE BALANCE SHEET OF
 GOVERNMENTAL FUNDS
 TO THE STATEMENT OF NET ASSETS
 September 30, 2010

Total Fund Balance - Governmental Funds \$ 1,783,293

Amounts reported for governmental activities in the statement of net assets
 are different because:

Net capital assets used in governmental activities are not financial
 resources and therefore are not reported in the funds 7,249,979

Certain liabilities are not due and payable in the current period and therefore
 are not reported in the funds. Those liabilities include:

Accrued Interest	(21,585)
Unfunded Defined-Benefit Retirement Obligation	(2,327,859)
Landfill Closure Costs	(1,124,189)
Bond and Note Obligations	<u>(3,739,472)</u>

Net Assets of Governmental Activities \$ 1,820,167

CITY OF DUMAS, TEXAS
 RECONCILIATION TO THE STATEMENT OF REVENUES, EXPENDITURES
 AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 Year Ended September 30, 2010

Net Changes in Fund Balance - Governmental Funds \$ (179,486)

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental Funds to Statement of Activities Adjustments:

Governmental funds report capital outlays as expenditures. In the Statement of Activities, the cost of assets are allocated over their estimated useful lives in the form of depreciation. 1,295,885

Debt proceeds are reported as other financing sources in Governmental Funds but increases the debt liability on the Statement of Net Assets (320,865)

Debt service is an expenditure for governmental funds consisting of both interest expense and principal for the Notes Payable. The principal portion reduces Notes Payable on the Governmental Activities Balance Sheet and is not an expense on the Statement of Activities 386,136

Statement of Activities to Governmental Funds Adjustments:

Depreciation is recognized on the Statement of Activities as allocating the cost of the assets over their estimated useful lives (382,400)

The change in landfill closure costs is reported on the Statement of Activities but is not reflected in the Governmental Funds (226,732)

The change in accrued interest is reported on the Statement of Activities but is not reflected in the Governmental Funds (1,613)

The change in retirement benefit obligation liability is reported on the Statement of Activities but is not reflected in the Governmental Funds (86,285)

Change in Net Assets of Governmental Activities \$ 484,640

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the City of Dumas, Moore County, Texas (City) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. In June 1999, GASB approved Statement No. 34 "*Basic Financial Statements and Management Discussion and Analysis for State and Local Government.*" In June 2001, the GASB approved Statement No. 37, "*Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments: Omnibus*" and Statement No. 38 "*Certain Financial Statement Note Disclosures.*" Statement No. 37 clarifies and modifies Statement No. 34 and should be implemented simultaneously with Statement No. 34. Statement No. 38 modifies establishes and rescinds certain financial statement disclosure requirements. The City of Dumas implemented the provisions of the above statements effective July 1, 2003.

GASB Statement Number 20 requires that governments' proprietary activities apply all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins. Governments are given the option whether or not to apply all FASB Statements and Interpretations issued after November 30, 1989, except for those that conflict with or contradict GASB pronouncements. The City has elected not to implement FASB Statements and Interpretations issued after November 30, 1989.

The more significant accounting policies are described below.

Reporting Entity - The City is a municipal corporation governed by a Council-Manager form of government. The City, incorporated in 1955, is located in the panhandle part of the state, occupies a land area of approximately 5.3 square miles and serves a population exceeding 14,000. The City is empowered to levy a property tax on both real and personal properties located within its boundaries. It also is empowered by state statute to extend its corporate limits by annexation, which occurs when deemed appropriate by the city council.

The City provides a range of services, including police and fire protection, maintenance of streets and other infrastructure, sanitation services and recreational activities. The City also provides utilities for water and sewer.

The City Council (the Council) is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the City is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "*The Financial Reporting Entity.*"

As required by GAAP, the BFS present the reporting entity which consists of the City (the primary government), organizations for which the City is financially accountable and other organizations for which the nature and significance of their relationship with the City are such that exclusion could cause the City's BFS to be misleading or incomplete were noted for inclusion in the BFS.

Discretely Presented Component Unit - The Component Unit Columns in the Government-Wide Financial Statements include financial data from the City's component units. They are reported in a separate column to emphasize that they are legally separate from the City. The Component Units are included in the reporting entity because the primary government is financially accountable and is able to impose its will (significantly influence operations and/or activities) on the organization.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

The Dumas Economic Development Corporation, (DEDC), is a legally separate entity formed by the City Council to create, manage, operate and supervise programs and activities to promote, assist, and enhance economic development within and around the city. The City Council appoints the board members and its operations and budget are approved by the council. Copies of the Dumas Economic Development Corporation's financial statements may be obtained from the Dumas City Hall or from the Dumas Economic Development Corporation, 1015 N. Maddox, Dumas, Texas, 79029. GASB Statement 14 requires portions of the DEDC component unit financial information to be presented along with the City information.

Government-wide Financial Statements and Fund Financial Statements - On October 1, 2003, the City implemented GASB Statement No.34 – *Basic Financial Statements – and Management's Discussion and Analysis – For State and Local Governments*, GASB Statement No. 37 – *Basic Financial Statements – and Management's Discussion and Analysis – For State and Local Governments – Omnibus* and GASB Statement No. 38 – *Certain Financial Statement Note Disclosure*. Statement No. 34 represents changes in the financial reporting model. Under the new model specified by Statement No. 34, the BFS include both Government-wide and Fund Financial Statements.

Statement 34 requires the following components to the basic financial statements:

- Reporting operating revenues net of the provision of uncollectible accounts.
- Use the direct method of preparing the cash flow statement.
- Preparation by management of the required "*Management's Discussion and Analysis*" which is to be included with the audited financial statements as required supplemental information.

The Government-Wide Financial Statements (GWFS), such as the Statement of Net Assets and the Statement of Activities, report information on all of the nonfiduciary activities of the City. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All activities, both governmental and business type, are reported in the GWFS using the economic resources measurement focus and the accrual basis of accounting, which includes long-term assets and receivables as well as long-term debt and obligations. The GWFS focus more on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period.

The Government-Wide Statement of Net Assets reports all financial and capital resources of the City. It is displayed in a format of assets less liabilities equal net assets, with the assets and liabilities shown in order of their relative liquidity. Net assets are required to be displayed in three components: 1) invested in capital assets, net of related debt, 2) restricted and 3) unrestricted. Invested in capital assets, net of related debt is capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets. Restricted net assets are those with constraints placed on their use by either: 1) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or 2) imposed by law through constitutional provisions or enabling legislation. All net assets not otherwise classified as net assets net of related debt or restricted, are shown as unrestricted. Generally when both restricted and unrestricted resources are available for use, the City will use restricted resources before using unrestricted resources, as they are needed.

Reservations or designations of net assets imposed by the City, whether by administrative policy or legislative actions of the city council that do not otherwise meet the definition of restricted net assets, are not segregated from unrestricted net assets in the GWFS.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who use the segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. The general revenues support the net costs of the functions and segments not covered by program revenues.

Also part of the BFS are Fund Financial Statements (FFS) for governmental, proprietary and fiduciary funds, even though fiduciary funds are excluded from the GWFS. The focus of the FFS is on major funds as defined by GASB Statement No. 34. Although GASB Statement No. 34 sets forth minimum criteria for determination of major funds (a percentage of assets, liabilities, revenue or expenditures/expenses of fund category and of the governmental and enterprise funds combined), it also gives governments the option of displaying other funds as major funds. The City can elect to add some funds as major funds because of outstanding debt or community focus. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the FFS. Other non-major funds are combined in a single column in the appropriate FFS.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The GWFS are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary FFS. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met. Property taxes and interest associated with the current fiscal period are all considered susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the City receives cash.

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. The City records reserves to indicate that a portion of fund balance is legally restricted for a specific future use or is not available for appropriation and/or expenditure.

Governmental Funds are those through which most of the governmental functions of the City are financed. The City reports the following major governmental funds:

The General Fund – The general fund is the City of Dumas' primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund. The General Fund presented in the financial statements consists of the following individual funds: General, Payroll, and Disbursement funds.

Construction Fund – This fund accounts for the City's activity in the construction of the City's various major construction projects.

Additionally, the City reports the following non-major governmental funds:

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments or major capital outlays) that are restricted to expenditures for specified purposes.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Debt Service Fund is used to account for the accumulated resources and related payments of principal and interest on long term general obligation debts of the City.

Internal Service Fund is used to account for the revenues and expenses related to employee health and other insurance benefits provided by the City on a cost reimbursement basis.

Governmental Funds with Deficit Fund Balances - While the total unreserved fund balance is not in a deficit position, the City has funds with deficit fund balances as of September 30, 2010: Park Improvement Fund of \$(486,194) and the Law Enforcement Seizure Fund of \$(13,386). The City has made expenditures and encumbrances in these funds in anticipation of additional revenues and transfers.

Proprietary funds are those through which most of the costs of providing the services are funded through charges for services. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal operating revenues are charges to customers for sales and services. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Gas Utility Fund – The Gas Utility Fund is used to account for the provision of gas services to the residents of the City. All activities necessary to provide such services are accounted for in this fund including administration, operations billing and maintenance.

Water Utility Fund – The Water Utility Fund is used to account for the provision of water services to the residents of the City. All activities necessary to provide such services are accounted for in this fund including administration, operations billing and maintenance.

Wastewater Utility Fund - This fund accounts for the billings, collections and maintenance of the wastewater infrastructure and operations.

Pheasant Trails Golf Course Fund - This fund accounts for the operations of the municipal golf course.

Budgetary Data - Annual budgets are adopted on a basis consistent with Generally Accepted Accounting Principles for the proprietary funds, with the exceptions of capital outlays being considered a budgeted line item and depreciation is not. Governmental funds are budgeted on a basis appropriate for the specific funds. All annual appropriations lapse at the end of the fiscal year.

The finance director annually submits to the City Council a proposed operating budget for the upcoming fiscal year. Public hearings are conducted to obtain taxpayer comments, and the budget is legally enacted through passage by the City Council. Council action is required for the approval of a supplemental appropriation.

All budget amounts presented in the budget comparison statement reflect the final budget after legally authorized adjustments to the original budget during the year. Budgetary control is maintained by department with all budget supplements to be approved by the City Council. Management may make administrative transfers and increases or decreased in accounts within categories, as long as expenditures do not exceed budgeted appropriations at the fund level. No significant budget adjustments were made during the fiscal year.

CITY OF DUMAS, TEXAS
NOTES TO FINANCIAL STATEMENTS - CONTINUED
SEPTEMBER 30, 2010

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Equity in Pooled Cash and Investments - The City pools the resources of various funds in order to facilitate the management of cash and enhance investment earnings. Records are maintained which reflect each fund's equity in the pooled account. The City's investments are stated at fair value

Cash Equivalents - Cash equivalents are defined as short-term highly liquid investments that are readily convertible to known amounts of cash and have original maturities of three months or less when purchased which present and insignificant risk of changes in value because of changes in interest rates.

Use of Restricted Cash - When the City incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first whenever they will have to be returned if they are not used.

Property Taxes Receivable - The value of all real and business property located in the city is assessed annually on January 1 in conformity with Subtitle E of the Texas Property Code. Property taxes are levied on October 1 on those assessed values and the taxes are due upon receipt of the tax bill. The taxes are considered delinquent if not paid by the end of January. At the City's fiscal year end, all property taxes receivable are considered delinquent and an account for an allowance for uncollectible taxes is adjusted to counter the receivable. The property taxes are recorded in the General Fund and Debt Service Fund as appropriate.

Proprietary Fund Accounts Receivable - Within the Gas, Water, and Wastewater Funds, services rendered and billed but not collected as of the close of the fiscal year are accrued and this amount is reflected in the accounts receivable balance. Amounts billed are reflected as accounts receivable net of an allowance for uncollectible accounts.

Capital Assets and Depreciation - Capital assets, including public domain infrastructure (e.g. streets, bridges, sidewalks and other assets that are immovable and of value only to the City) are defined as assets with an initial, individual cost and an estimated useful life in excess of one year. These capital assets are reported in the GWFS and in the proprietary FFS. Capital assets are recorded at cost or estimated historical cost if purchased or constructed. Donated assets are recorded at the estimated fair value on the date of donation.

Major outlays for capital assets and improvements are capitalized as the projects are constructed. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized. Major improvements are capitalized and depreciated over the remaining useful lives of the related capital assets.

Depreciation is based on the estimated useful lives, and has been calculated by use of the straight-line method applied to cost. Equipment under capital lease obligations is amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the equipment. Such amortization is included in depreciation and amortization in the proprietary FFS. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. The city uses the following schedule to determine the useful lives of capital assets:

Infrastructure/Improvements	10-50 Years
Buildings	15-50 Years
Equipment	3-15 Years

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Inventories - The City reports inventories of supplies at cost including consumable utility maintenance and office items. Supplies are recorded as expenditures when they are consumed, except for certain utility and other supplies.

Customer Deposits - Cash held in the Proprietary fund for customer deposits is reserved.

Long Term Debt - In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Balances - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Sales Tax Revenue - The tax is collected by the vendor from consumers and is required to be submitted to the State of Texas by the 20th of the month following collection. The State then remits the allocated amount of sales tax to the City by the 10th of the month following vendor submission. These amounts are included in the gross receipts tax revenue and are recorded as revenue when the underlying exchange has taken place, regardless if the City has actually received the funds. The City collects and remits the appropriate portion designated for the Dumas Economic Development Corporation.

Compensated Absences - It is the City's policy to permit some employees to accumulate earned but unused vacation and sick pay benefits. All sick pay and vacation pay is accrued when incurred in the government-wide or proprietary fund financial statements.

Risk Management - The City is exposed to various risks of losses related to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. For the past several years the City has obtained coverage from Texas Municipal League Intergovernmental Risk Pool. Participation in the risk pool serves to insure the City against the risk of loss, thereby transferring that risk to the risk pool. There were no significant reductions in insurance coverage from coverage in the prior year. Settlement amounts have not exceeded coverage for the current year or the past three fiscal years.

Each fund (Worker's Compensation and Property-Liability) of the Risk Pool consists of an unincorporated association of political subdivisions of the State of Texas (hereinafter called Employer Members), which are authorized under Chapter 504, Labor Code, and Chapter 791, Government Code, to become self-insurers and enter into interpositional agreements with other political subdivisions to extend workers' compensation benefits and liability protection for themselves, their officers and employees while acting in their official capacities, as well as municipal property coverage. Each Employer Member of each fund shall adopt the rules, regulations and bylaws promulgated by the Board of Trustees for each Fund. The Funds are not intended to operate as an insurance company, but rather are intended to be the contracting mechanism by which each Employer Member provides self-insurance.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Members of TML are required to pay their contributions as provided by the contract. All contributions from the employer members are combined for the payment of claims, purchase of reinsurance, and administrative expenses of the fund. Employer members are not subject to any additional contribution assessments above their required annual contributions. For the proper protection of the Funds, each Employer Member shall be required to implement such reasonable loss control recommendations and take such safety precautions as may be required by the Fund representative.

Fair Value Measurement - FASB ASC 820-10-50-1 defines fair value, establishes a framework for using fair value to measure assets and liabilities, and expands disclosures about fair value measurements. This statement establishes a hierarchy that prioritizes the methods used to measure fair value such that the highest priority is given to unadjusted quoted prices in active markets for identical assets (Level 1). Second priority is for quoted prices for similar assets in active or inactive markets, or valuations from other sources than quoted prices or other market data that can be observed, correlated or corroborated (Level 2), and the lowest priority to unobservable methods (Level 3). Currently, all the City's instruments are valued using Level 1 valuation methods.

Subsequent Events - FASB ASC 855-10-50-1 requires reporting entities to disclose the date through which subsequent events have been evaluated and whether that date is the date the financial statements were issued or were available to be issued. Management has evaluated subsequent events through June 20, 2011, the date the financial statements were issued.

NOTE B - CASH DEPOSITS AND INVESTMENTS

Cash Deposits - The City's investment policies are governed by State statutes and City ordinances. The Public Funds Investment Act ("PFIA", Chapter 2256) requires the City to adopt, implement and publicize an investment policy which covers specific provisions in the Act regarding investment practices, management reporting and policy establishment. The investment policy in effect is available for public inspection at the City Hall. The PFIA establishes authorized investment vehicles for the City. The City is in substantial compliance with the PFIA at the end of the 2010 fiscal year.

Interest Rate Risk - The City and DEDC minimizes interest rate risk by limiting investments to having a maturity date of one year or less.

Custodial Credit Risk - Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The City manages its custodial credit risk by depositing its funds with institutions participating in the FDIC insurance programs and is able to collateralize the deposits in accordance to state statutes, or depositing into investment pools overseen by the Texas State Comptroller of Public Accounts, such as TexPool.

In accordance with FDIC, public unit deposits are funds owned by the City. Time deposits, savings deposits and interest bearing NOW accounts of a public unit in an institution will be insured up to \$250,000 in aggregate and separate from the \$250,000 coverage for public unit demand deposits at the same institution through December 2012, when the coverage will revert back to the original \$100,000 limit.

Statutes require collateral pledged for deposits in excess of the federal deposit insurance to be delivered, or a joint safekeeping receipt be issued, to the City for at least the amount on deposit with the institution. The types of collateral an institution is permitted to use as pledged securities are limited to direct obligations of the United States Government and all bonds issued by any agency or political subdivision of the State of Texas.

CITY OF DUMAS, TEXAS
 NOTES TO FINANCIAL STATEMENTS - CONTINUED
 SEPTEMBER 30, 2010

NOTE B - CASH DEPOSITS AND INVESTMENTS - Continued

As of September 30, 2010, the City's funds on deposit were adequately covered by either FDIC insurance or collateralized securities held by the financial institutions pledged to cover the City's deposits. The City had no bank deposits subject to custodial credit risk during the 2010 fiscal year.

Dumas Economic Development Corporation - The DEDC maintains separate financial institution and TexPool accounts. Although the organization is a component unit of the City, its FDIC and collateralization of its deposits are covered separately because the Corporation is a separate non-profit entity. DEDC also does not participate in the City's internal pooling of cash as disclosed below.

At September 30, 2010, the City and DEDC had insured bank balances as follows:

	City of Dumas Happy State Bank	Dumas Economic Development Corporation
Carrying Amounts		
Demand Accounts	\$ 754,605	\$ 228,243
Certificates of Deposit	211,270	-
Net Reconciling Items	<u>245,276</u>	<u>6,419</u>
Total Public Funds on Deposit	1,211,151	234,662
Less FDIC Coverage	<u>(250,000)</u>	<u>(234,662)</u>
Amount to be Collateralized	961,151	-
Collateralized by Institution	<u>(2,100,406)</u>	<u>-</u>
Under (Over) Collateralized	<u>\$ (1,139,255)</u>	<u>\$ -</u>

The City utilizes a pooled cash method of disbursements, whereby one bank account is used by both types of activities to pay expenditures, and the bank account is reimbursed by each fund for the proportionate amount spent by each fund. Below is the amounts allocated to the specific activity:

	Governmental Activities	Business-type Activities	City of Dumas Total	Dumas Economic Development Corporation
Pooled Cash	\$ 1,186,321	\$ (432,330)	\$ 753,991	\$ -

NOTE B - CASH DEPOSITS AND INVESTMENTS - Continued

Investments - The City and DEDC maintain accounts with LOGIC and TexPool which are public funds investments pool established under the authority of the Interlocal Cooperation Act and subject to the provisions of the Act. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires the pools to: 1) Have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) Maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by Standard and Poor's or other nationally recognized rating services; and 3) Maintain the market value of its underlying investment portfolio within one percent of the value of its shares. The Weighted Average Maturity (WAM) of LOGIC and TexPool is 27 days. Participation in the pools is allowed under the guidelines of the PFIA, is voluntary, and may be terminated and the funds withdrawn at the discretion of the City Council and/or the DEDC board of directors.

	Governmental Activities	Business-type Activities	City of Dumas Total	Dumas Economic Development Corporation
Certificates of Deposits	\$ 101,044	\$ 110,226	\$ 211,270	\$ -

NOTE E - LONG-TERM DEBT

The following details the outstanding bonds, notes and capital lease obligations for the City as of September 30, 2010:

Primary Government:

Governmental Activities:

2001 Certificates of Obligation - The City issued Certificates of Obligation in 2001 to fund various projects in both the utilities and general government of the City. The first principal retirement payment of \$145,000 was scheduled for the 2001 fiscal year with principal payments ranging from \$110,000 to \$145,000 due annually thereafter, with interest paid on a semi-annual basis. Approximately 87.37% of the liability is being funded through the Debt Service Fund, while the remaining 12.63% is being funded by the revenues generated by the Water Utility Fund.

2008 Certificates of Obligation - The City issued Certificates of Obligation in 2008 to fund the construction of the municipal pool. The first principal retirement payment of \$70,000 was scheduled for the 2009 fiscal year with principal payments ranging from \$70,000 to \$205,000 due annually thereafter, with interest paid on a semi-annual basis. The obligations are being funded through the Debt Service Fund.

Happy State Bank - The City entered into a Note Payable with Happy State Bank in March 2010 to fund the purchase of a motorcycles for the police department. Monthly principal and interest payments of \$1,002 are to be made starting in April, 2010. Funds from the City's general revenue are used for the debt service of this note payable.

Happy State Bank - The City entered into a Note Payable with Happy State Bank in March 2010 to fund the purchase of a water truck for the landfill. Monthly principal and interest payments of \$366 are to be made starting in April, 2010. Funds from the City's general revenue are used for the debt service of this note payable.

Happy State Bank - The City entered into a Note Payable with Happy State Bank in March 2010 to fund the purchase of a vehicle for the warehouse. Monthly principal and interest payments of \$506 are to be made starting in April, 2010. Funds from the City's general revenue are used for the debt service of this note payable.

Government Capital Corporation - The City entered into a Capital Lease Obligation with Government Capital Corporation in October 2008 for the purchase of patrol vehicles for the police department. Annual principal and interest payments of \$44,506 are to be made, starting October 2009. Funds from the City's general revenue are used for the debt service of this Capital Lease Obligation.

Diversified Lenders Corporation - The City entered into a Capital Lease Obligation with Diversified Lenders Corporation in October 2009 for the combined purchase of a rescue unit for the fire department and a sewer rodder for the utilities department. Quarterly principal and interest payments of \$7,756 are to be made, starting January 2010. Funds from the City's general revenue are used for funding 55% of the debt service of this Capital Lease Obligation, and funds generated from the Wastewater Utility Fund are to be used for the remaining 45% of the obligation.

Diversified Lenders Corporation - The City entered into a Capital Lease Obligation with Diversified Lenders Corporation in January 2008 for the purchase of packer bodies which were mounted on solid waste trucks for the sanitation department. Quarterly principal and interest payments of \$9,951 are to be made, starting October 2009. Funds from the City's sanitation billing are used for the debt service of this Capital Lease Obligation.

	<u>\$ 3,739,472</u>	<u>\$ 2,178,133</u>	<u>\$ 5,917,605</u>

Business-type Activities:

2001 Certificates of Obligation - The City issued Certificates of Obligation in 2001 to fund various projects in both the utilities and general government of the City. The first principal retirement payment of \$145,000 was scheduled for the 2001 fiscal year with principal payments ranging from \$110,000 to \$145,000 due annually thereafter, with interest paid on a semi-annual basis. Approximately 87.37% of the liability is being funded through the Debt Service Fund, while the remaining 12.63% is being funded by the revenues generated by the Water Utility Fund.

2004 Certificates of Obligation - The City issued Certificates of Obligation in 2004 to fund expansion and renovation of the water and wastewater infrastructure and to purchase additional water rights.. The first principal retirement payment of \$145,000 was scheduled for the 2001 fiscal year with principal payments ranging from \$110,000 to \$145,000 due annually thereafter, with interest paid on a semi-annual basis. Approximately 40% of the liability is being funded through the Water Utility Fund, while the remaining 60% is being funded by the revenues generated by the Wastewater Utility Fund.

Diversified Lenders Corporation - The City entered into a Capital Lease Obligation with Diversified Lenders Corporation in October 2009 for the combined purchase of a rescue unit for the fire department and a sewer rodder for the utilities department. Quarterly principal and interest payments of \$7,756 are to be made, starting January 2010. Funds from the City's general revenue are used for funding 55% of the debt service of this Capital Lease Obligation, and funds generated from the Wastewater Utility Fund are to be used for the remaining 45% of the obligation.

First State Bank - The City entered into a Note Payable with First State Bank in March 2010 to fund the purchase and installation of the water automation project for the utility department. Quarterly principal and interest payments of \$75,150 are to be made starting in September 2004. Funds from the City's utility billings and collections are used for the debt service of this note payable.

Textron Financial Corporation - The City entered into a Capital Lease Obligation with Textron Financial Corporation in June 2007 for the purchase of golf carts used at the municipal golf course. Monthly principal and interest payments of \$1,321 are to be made, starting July 2007. Funds from the City's charges at the golf course are used for the debt service of this Capital Lease Obligation.

Textron Financial	3.00%	1,171,146	Feb, 2029	14,632
				<u>\$ 511,494</u>

Scheduled debt service requirements for the City's long term debt for the Business-type Activities as of September 30, 2010 are as follows:

Year Ended December 31,	Principal	Interest	Total Debt Service
2011	\$ 511,494	\$ 121,441	\$ 632,935
2012	519,423	102,223	621,646
2013	615,184	82,448	697,632
2014	733,519	60,231	793,750
2015	764,625	33,255	797,880
2016-2020	221,112	4,434	225,546
	<u>\$ 3,365,357</u>	<u>\$ 404,032</u>	<u>\$ 3,769,389</u>

Component Unit:

Dumas Economic Development Corporation financed the purchase and development of the Dumas Industrial Park with a local institution. The original \$400,000 note was secured by the real estate and buildings located in the park. The remaining \$293,900 note was refinanced in April 2008 at an annual interest rate of 5.25%, consisting of annual payments of principal and interest of \$38,665, with maturity in April 2018. The expected cash flows from the dedicated sales tax and the rental of the properties located in the industrial park are to be used to service the debt.

CITY OF DUMAS, TEXAS
 NOTES TO FINANCIAL STATEMENTS - CONTINUED
 SEPTEMBER 30, 2010

NOTE E - LONG-TERM DEBT - Continued

Dumas Economic Development Corporation financed the purchase of highway frontage property adjacent to the Dumas Industrial Park with a owner of the property. The original \$325,000 note was secured by the real estate. Payment consists of annual payments of principal and interest of \$44,157, starting in June, 2011. The expected cash flows from the dedicated sales tax and the rental of the properties located in the industrial park are to be used to service the debt.

	Balance 9/30/09	Additions	Payments	Balance 9/30/10

CITY OF DUMAS, TEXAS
 NOTES TO FINANCIAL STATEMENTS - CONTINUED
 SEPTEMBER 30, 2010

NOTE F – LANDFILL CLOSURE AND POSTCLOSURE CARE COST

State and federal laws and regulations require the City to place a final cover on its landfill location when it stops accepting waste and to perform certain maintenance and monitoring functions at the location for thirty years after closure. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the City reports a portion of these closure and post-closure care costs as operating expenses and increases the corresponding long term liability in each period based on landfill capacity used as each balance sheet date.

The \$1,124,189 included in the landfill closure and post closure care liability at September 30, 2010 represents the cumulative amount expensed by the City to date for its landfill that is registered under TCEQ permit numbers 211B Type 1 and 2285 Type IV, less any amounts previously paid. Approximately 62 percent of the overall estimated capacity has been used, with \$677,860 of the estimated \$1,802,049 closing costs to be recognized over the remaining closure period, currently estimated at approximately 2.28 years for Type 1-AE usage, and approximately 24.6 years for Type IV usage under the existing permits. The volume amount of used capacity and estimated remaining life of the landfill is evaluated annually. Post closure care costs are based on prior estimates and have been adjusted for inflation. Actual costs may differ due to inflation, deflation, changes in technology, or other regulatory changes.

The City is required by state and federal laws and regulations to provide assurance that financial resources will be available for landfill closure, post closure care, and remediation or containment of environmental hazards. The City is in compliance with these requirements had has chosen the Local Government Financial Test mechanism for providing assurance. The City expects to finance costs through normal operations.

	Balance 9/30/09	Additions	Payments	Balance 9/30/10
Landfill Closure Costs	<u>\$ 897,457</u>	<u>\$ 226,732</u>	<u>\$ -</u>	<u>\$ 1,124,189</u>

NOTE G – INTERFUND TRANSFERS AND BALANCES

Interfund transfers are made for various purposes throughout the year. Transfers made by the City during the fiscal year ended September 30, 2010 are listed below.

Transfer To	Transfer From	Amount	Purpose
Golf Course Fund	General Fund	\$ 133,791	Subsidize Fund Operations
Christmas Decorations Fund	Water Utility Fund	10,000	Subsidize Fund Operations
Park Improvement Fund	Gas Utility Fund	15,000	Subsidize Fund Operations
General Fund	Gas Utility Fund	329,268	General Fund Indirect Cost Allocation
General Fund	Water Utility Fund	329,268	General Fund Indirect Cost Allocation
General Fund	Wastewater Utility Fund	329,268	General Fund Indirect Cost Allocation
General Fund	Water Utility Fund	500,000	Subsidize Fund Operations
General Fund	Wastewater Utility Fund	<u>500,000</u>	Subsidize Fund Operations
	Total Transfers	<u>\$ 2,146,595</u>	

CITY OF DUMAS, TEXAS
 NOTES TO FINANCIAL STATEMENTS - CONTINUED
 SEPTEMBER 30, 2010

NOTE G – INTERFUND TRANSFERS AND BALANCES – Continued

The City transfers certain costs incurred by the General Fund to the Proprietary Funds. Approximately 75 percent of the expenses incurred by the City Commission, Administration, Engineering, Information Systems, Warehouse, Communications and Purchasing departments in the General Fund are allocated equally among the Gas, Water and Wastewater Utility Funds, as disclosed in the above schedule.

The City had outstanding interfund balances as of September 30, 2010, which were to be transferred in the following fiscal year. Because both the General Fund and the Law Enforcement Seizure Fund are Governmental Funds, this interfund balance has been eliminated in the Government-wide Statement of Net Assets.

Due To	Due From	Amount	Purpose
General Fund	Law Enforcement Seizure Fund	<u>\$ 14,000</u>	Subsidize Fund Operations

Due to Component Unit - The City receives the sales tax remittances from the State Comptroller's Office electronically each month. In turn, the City electronically transfers the appropriate dedicated sales tax amounts to Dumas Economic Development Corporation. During the fiscal year, the City received and transferred the following amounts. The remaining balance due to DEDC is expected to clear out in the next fiscal year.

	Balance 9/30/09	Collections	Payments	Balance 9/30/10
Due to Component Unit	<u>\$ 52,106</u>	<u>\$ 660,572</u>	<u>\$ 657,214</u>	<u>\$ 55,464</u>

NOTE H – DISCRETELY PRESENTED COMPONENT UNIT

Component unit information for the City's major component unit, Dumas Economic Development Corporation, is provided in the following condensed financial statements for the fiscal year ended September 30, 2010. A complete audited financial statement may be obtained by contacting Dumas Economic Development Corporation, PO Box 595, Dumas, Texas, 79029.

NOTE I - PENSION PLAN AND OTHER POSTEMPLOYMENT BENEFITS

Pension Trust Fund:

Plan Description – The City and DEDC provide pension benefits for all of its eligible full-time employees through a non-traditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), an agent multiple-employer public employee retirement system. TMRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for TMRS; the report also provides detailed explanations of the contributions, benefits, and actuarial methods and assumptions used by the System. The report may be obtained from the TMRS website at www.tmr.org or by writing to TMRS, PO Box 149153, Austin, TX 78714-9153.

Members can retire at ages 60 and above with 5 or more years of service or with 25 years of service regardless of age. A member is vested after 5 years. The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes.

Contributions – Under state law governing TMRS, the contribution rate for the City and DEDC is determined annually by the actuary, using the Protected Unit Credit actuarial cost method. This rate consists of the normal cost contribution rate and the prior service cost contribution rate, which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the portion of an active member’s projected benefit allocated annually; the prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the applicable period for the City. Both the normal cost and prior service contribution rates include recognition of the projected impact of annually repeating benefits, such as Updated Service Credits and Annuity Increases.

CITY OF DUMAS, TEXAS
 NOTES TO FINANCIAL STATEMENTS - CONTINUED
 SEPTEMBER 30, 2010

NOTE I - PENSION PLAN AND OTHER POSTEMPLOYMENT BENEFITS - Continued

The employee contribution rate is 5%, and the City and DEDC matching ratio is currently 2 to 1, both as adopted by the governing body of the City. The total contribution rate for the City and DEDC is 8.18% and 7.87% for the calendar years 2010 and 2009, respectively. Both the employees and the City and DEDC make contributions monthly. Since the City and DEDC needs to know its contribution rate in advance for budgetary purposes, there is a one year delay between the actuarial valuation that serves as the basis for the rate and the calendar year for when the rate goes into effect (i.e. December 31, 2009 valuation is effective for rates beginning January, 2011).

Employee contributions for the fiscal years ending September 30, 2010 were approximately 228,644, of which approximately \$6,870 were from DEDC employees. Contributions made by the City and DEDC totaled approximately \$370,524, of which DEDC contributed approximately \$10,994. Total contributions to TMRS were approximately \$599,168, which includes contributions to the Supplemental Death Benefit Fund.

Actuarial Changes - In December, 2007, the TMRS Board of Trustees adopted actuarial assumptions to be used in the actuarial valuation for the year ended December 31, 2007. A summary of the actuarial assumptions and definitions may be found in the TRMS Comprehensive Annual Financial Report for the year ended December 31, 2007.

Previously, TMRS had used the Unit Credit actuarial funding method. This method accounts for liability accrued as of the valuation date, but did not project the potential future liability of provisions adopted by the City. For the December 31, 2007 valuation, the TMRS board determine that the Projected Unit Credit funding method should be used, which facilitates advance funding for future updated service credits and annuity increases that are adopted on an annually repeating basis.

In addition, the board also adopted a change in the amortization period from a 25-year "open" to a 25-year "closed" period. TMRS rules provide that, whenever a change in actuarial assumptions or methods result in a contribution rate increase in an amount greater than 0.5%, the amortization period will be increased to 30 years, unless a city requests that the period remain at 25 years. For cities with repeating features, these changes would likely result in initially higher required contributions and lower funded ratios; however the funded ratio should show steady improvement over time. To assist in the transition to higher rates, the TMRS board also approved an eight-year phase in period, which would allow cities the opportunity to increase their contributions gradually to the full or required contribution rate.

Supplemental Death Benefits Fund:

Plan Description - The City and DEDC participates in the Supplemental Death Benefits Fund (SDBF), which is a cost-sharing multiple-employer defined benefit group term life insurance plan operated by TMRS. This is a separate trust administered by the TMRS Board of Trustees. TMRS issued a publicly available Comprehensive Annual Financial Report that included financial and supplementary information for the SDBF. The report may be obtained from the TMRS website at www.tmrs.org or by writing to TMRS, PO Box 149153, Austin, TX 78714-9153.

NOTE I - PENSION PLAN AND OTHER POSTEMPLOYMENT BENEFITS - Continued

Benefits - The City elected to provide group-term life insurance coverage for both current and retired employees. The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculation based on the employee's actual earnings for a 12 month period preceding the month of death). Retired employees are insured for \$7,500.

Contributions - The City and DEDC contributes monthly to the SDBF at a contractually required rate as determined by an annual actuarial valuation. Such rates were 0.19% and 0.22% in 2009 and 2008, respectively, as a percentage of covered payroll. The rate is based on the mortality and service experience of all employees covered by the SDBF and the demographics specific to the workforce of the City and is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. The intent is not to pre-fund retiree term life insurance during the employees' entire careers. The contributions to the SDBF are pooled for investment purposes with those of the Pension Trust Fund. The TMRS Act requires the Pension Trust fund to allocate the investment income to the SDBF on an annual basis. There is a one year delay between the actuarial valuation that serves as the basis for the employer contribution rate and the calendar year when the rate goes into effect (i.e. December 31, 2008 valuation is effective for rates beginning January, 2010).

The City's and DEDC's contributions to the SDBF for the current and prior fiscal years are scheduled above, which equaled the required contributions for each fiscal year, as well as the actuarial assumptions for the SDBF.

SUPPLEMENTAL INFORMATION

COMBINING FUND STATEMENTS AND SCHEDULES

SPECIAL REVENUE FUNDS

Special Revenue funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts and major capital projects) that are legally restricted to expenditures for specified purposes.

Park Improvements Fund - Accounts for the operation and maintenance of municipal park improvements.

Court Technology Fund – Accounts for state-mandated fees designated for the court’s technology upgrades and improvements.

Law Enforcement Seizure Fund – Accounts for grants for and funds acquired from law enforcement seizure cases.

Police Training Fund – Accounts for funds and expenses to for police department specific training exercises.

Court Security Fund – Accounts for state-mandated fees designated to maintain and upgrade the court’s security system.

Hotel/Motel Tax Fund - Accounts for the special assessment tax on motel room rentals used for the promotion of the City.

Christmas Decorations Fund – Accounts for donations and expenses for the City’s annual Christmas decoration effort.

OTHER GOVERNMENTAL FUNDS

Insurance/Internal Service Fund – Accounts for the premiums paid and expenses for the employees’ insurance coverage.

Debt Service Fund – Accounts for the designated tax funds and the associated principal and interest expenditures related to the City’s current bond issuances.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Mayor and
Members of the City Council
City of Dumas, Texas

We have audited the basic financial statements of City of Dumas, Texas as of and for the year ended September 30, 2010, and have issued our report thereon dated June 20, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered City of Dumas, Texas's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Dumas, Texas's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of City of Dumas, Texas's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Dumas, Texas's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, City Council and others within the City of Dumas, Texas and applicable state and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF DUMAS, TEXAS
EXIT CONFERENCE
September 30, 2010

The contents of this report were discussed with the City of Dumas representatives on November 12, 2010. The following individuals attended the conference:

City of Dumas

Mike Milligan
Vince DiPiazza, City Manager
Dottie Williams, Finance Director

J.W. Anderson & Associates, PC

Larry Anderson, President
Scott Northam, Audit Manager
Jerry Hill, Audit Manager

The financial statements of the City of Dumas were prepared from original books and records provided by and with assistance from the management of the City and J.W. Anderson & Associates, PC.

Although Statement of Auditing Standards No. 112 - *Communicating Internal Control Related Matters Identified in an Audit* strongly emphasizes that the City prepare its own financial statements, the consensus between the City management and the auditors was that it would be more time and cost efficient for the auditors to prepare the financial statements and the related notes. Accordingly, the City has designated a competent management-level individual to oversee the auditors' services and have made all management decisions and performed all management functions. The City has reviewed, approved, and accepted responsibility for the accompanying financial statements and related notes, and for ensuring that the underlying accounting records adequately support the preparation of the financial statements in accordance with generally accepted accounting principles and that the records are current and in balance.
