Health Inspection- (11) Found that they were storing meat on top of bags of ice in the front freezer. No soap at the hand washing sink (cos). Microwave was dirty. The cutting board needed to be cleaned and sanitized. The 3 compartment sink needed to be cleaned and was leaking. **To be re-inspected in 10 days.**

Health Inspection- (11) Found them still storing meat on top of bags of ice in the front freezer (made them throw ice away and I am making them build shelving in the freezer to keep it separated). The 3 compartment sink is leaking from the bottom. Cutting boards are still stained. I will be monitoring them every couple of days. **To be re-inspected in 10 days.**
